

# MAC550

## Perfect Water Pressure Intelligent Variable Speed

[www.leogroup.cn](http://www.leogroup.cn)

LEO MAC550 is a intelligent pressure booster system, can automatically adjust performance according to water demand, can provide constant pressure to all taps.

### APPLICATIONS

Water supply and prssure boosting for all domestic application.  
Garden watering, building water supply and agriculture.

- Permanent Magnet Motor
- Easy Manipulation
- Protective Functions
- Energy Saving
- Space Saving
- Low Noise

LEO GROUP PUMP(ZHEJIANG) CO.,LTD.

# MAC

## Permanent Magnet Intelligent Booster

### Variable Speed

Pump can adjust performance by automatically adjust speed according to water demand, providing constanct prssure to all taps.

### Protective Functions

To protect the pump and ensure longer service life, several protective functions are incorporated into it. No-water protection, Dry-running protection, Over-heating protection, Plugging protection, Leakage protection.Over/Under-voltage protection, Phase deficiency protection.

### Energy Efficient & Money Saving

Permanent magnet frequency-converting motor help reduce power consumption, can automatically adjust speed to matche the required outlet water. Then helping to reduce energy bills.

### Easy Selection

One model for most of domestic applications.

### Low Noise

Water cooled motor make the sound level lower than 47dB(A) in typical use.

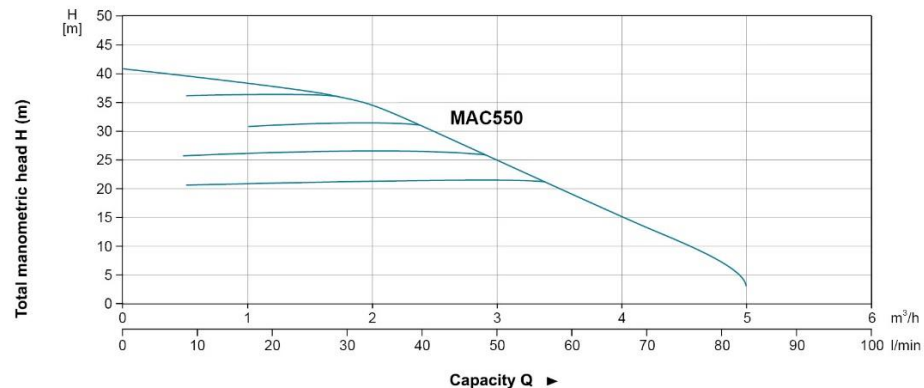

### User Friendly

Working pressure and fault code showing on touch control panel, and can be adjusted through the panel.

### Easy Installation

Compact all-in-one solution integrating high efficiency pump, non-return valves, sensor, speed controller and pressure vessel.

### Hydraulic Performance Curves
